BEST WAY

TO MANAGE YOUR PEOPLE

STREAM offers an online suite of tools that helps organizations improve their people management processes. Enable people to better manage themselves and their teams, map corporate culture, and select the right candidates.

Online Suite of Tools

MyProfile
Helps build self-awareness and the ability to effectively manage oneself and collaborate with others

MyTeam
Helps managers know precisely how to manage their teams and to measure their engagement

CultureFit
Helps organizations select people with the best chance of succeeding in the role and in the organization

CultureMap
Measures the organization's true culture to better understand and take action on strategic strengths and gaps

Proven Science

At the heart of the tools is a multifaceted psychometric instrument (developed by Humantelligence™) that measures Work Motivators, Work Behaviors, Ideal Work, and Life Priorities. It provides important insights about communication styles, and learning and teaching styles, among many others.

- **Unique**: is the only instrument on the market that covers four interrelated elements in one integrated assessment
- **Fast:** has short response time as can be completed in 15 minutes minimizing the potential for respondent bias due to fatigue
- **Accurate:** shown to meet strict validity and reliability standards over decades of research
- **Easy:** conducted through a mobile-friendly questionnaire that requires no preparation or special knowledge to complete

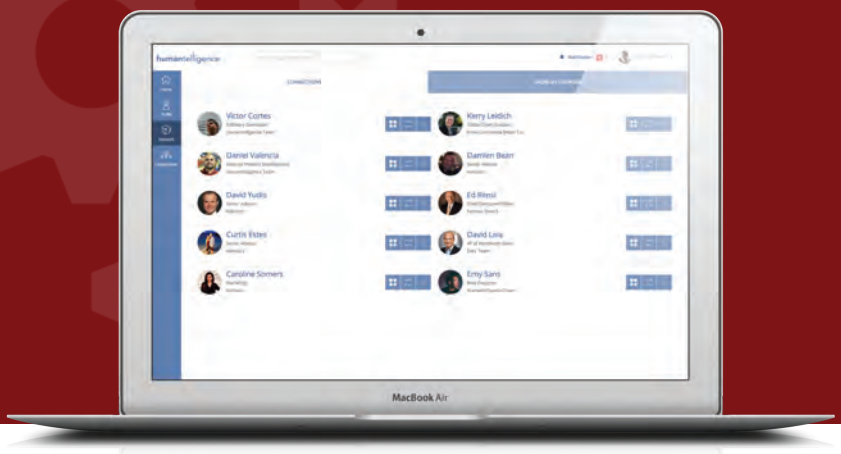
CULTURE MAP

stream
HELPING YOU IMPROVE



UNCOVER COMPANY CULTURE

CultureMap is an on line values based culture mapping tool that provides a true picture of an organization's shared social values, behavioral style and personal priorities.

Complete

Covers the most important factors that contribute to company culture, including values/motivators, work behaviors, ideal work, and life priorities

Automated

Provides data and insights that can be acted upon right away, requires no special knowledge to understand and use

Integrated

Easy to set up and administer, provides full integration in your processes or your HRIS

A true picture of company culture

CultureMap provides analytics and segmentation for a more complete picture of what initiates, drives and sustains a company's overall culture and its diverse team subcultures. Better understand motivational and behavioral strengths and gaps, and make evidence-based human resource decisions to build and reinforce the desired culture.
